Sponsored by the Wyoming Office of Multicultural Health

**Hosted by Casper College Counseling and Student Development
Center**

April 9, 2010

**Morning:
Transgenerational Trauma and its Effect on Present Day Families and Communities**

The workshop will facilitate understanding about historical trauma, and how the effects impact our present families and communities. Discussion will begin with Duran introducing how his work over the past 30 years in native communities has led toward the development of this theoretical area. The presentation will give participants knowledge as to how historical trauma is a human issue and how it impacts all communities because of the trauma that is imbedded in all cultural history.

Afternoon:

Toward a Treatment Model for Transgenerational Trauma

During the afternoon, the morning issues discussed will be given a more 'hands on' clinical presentation. Participants will be encouraged to think in a non-Western manner in understanding and working with some of the problems that our communities experience. Duran, acclaimed author of *Native American Postcolonial Psychology*, *Buddha in Redface*, *Healing the Soul Wound: Counseling with American Indians and Other Native Peoples*, among other books and numerous publications. He has worked for over twenty years as a clinical practitioner, professor, trainer, professional speaker, and Native American scholar committed to health and well-being in Indian Country.

Eduardo Duran, Ph.D.

May 19-20, 2010

The training will define and explore the key principles and core practices of cultural competence in the context of health. Participants will assess and apply the stages of cultural capacity on individual, organizational and system levels. Goals of the workshops are for participants to recognize their own cultural filters and biases, define common terminology and language of the field, assess capacities in working effectively with other cultural groups, and model the tenants of working cross-culturally in a safe learning environment. The interactive and engaging experience uses the diverse learning modalities of presentations, simulations, inventories, video, reflection, with large and small group discussion. Nakashima holds a Master of Science in Cross-Cultural Counseling Psychology from California State University and Bachelor of Arts in Psychology and a Sociology from the University of California, Santa Cruz. He is a Fellow of the Coro Policy and Public Affairs program. He lives in Oakland with his partner Debbie, daughters Gabriela and Camila, surrounded by his collection of Japanese Maples.

Dave Nakashima, M.S.

June 1-2, 2010

Day One:

- Role of cultural competence
- How to apply cultural competence skills to practice
- Cultural orientation and communication
- Biases at Work – Intent VS Impact

Day Two:

- What are Micro-aggressions and how they impact daily interactions?
- Cultural competence, inclusion and your organizations
- What does cultural competence have to do with a respectful workplace?

Inclusion, cultural competence and accountability. Reyes, holds a Doctoral Degree from the University of Cincinnati with support areas in Cultural Anthropology, Counseling and Qualitative Research. Reyes has published in the area of acculturation and works with healthcare organizations and communities on strategies to increase and integrate diversity. He has consulted nationally with the U.S. Department of Health and Human Services Office of Minority Health and the Office of Civil Rights. He has also served as advisor to the Colorado Department of Public Health and Environment Office of Health Disparities.

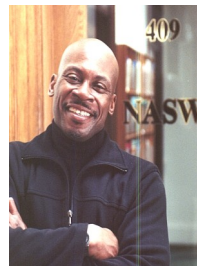

Jose Reyes, Ed.D.

July 13-14, 2010

The Road to Cultural Competence: Mapping the Social Work Journey.

Recognizing that cultural bias affects everyone of us at some level, it is important to constantly re-evaluate our own attitudes and personal experiences with people of different genders, social classes, religious and spiritual beliefs, sexual orientation, age, and mental and physical abilities. Incorporating cultural competence standards into practice will help practitioners respond effectively, knowledgeably, sensitively, and skillfully to diverse populations who seek their help. Gary Bailey, MSW, ACSW is a native of Cleveland, Ohio. He received his Bachelor of Arts from the Eliot Pearson School of Child Study at Tufts University in 1977, and his Master of Social Work from Boston University School of Social Work in 1979.

He is currently an Associate Professor at Simmons College Graduate School of Social Work, where he also holds an appointment as a Clinical Associate Professor at the Simmons School of Health Sciences.

Gary Bailey, M.S.W.
